

## Participate in Online Webinars on Infrared Thermal Imaging

### How to Conduct an Infrared Home Inspection

Participate in an online Webinar and learn about how infrared thermal imaging can be used for energy audits and moisture inspections. This important presentation covers the logistics of conducting these scans. Participants will learn the appropriate times to schedule an inspection, what equipment to bring, how to document problems, generate reports as well as follow-up with the homeowner. Limitations of the technology and other considerations will also be addressed.

**When** Wednesday, November 19, 2008

**Time:** 11:00 am, EST (GMT -05:00, NY)

**Duration:** 1 hour 10 minutes

**Host:** The Snell Group

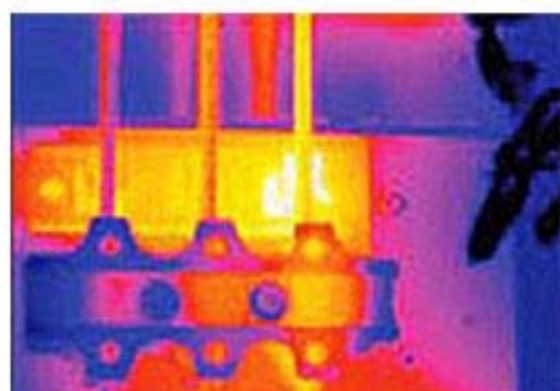

**Presenter:** John Snell

**Fee:** \$79

#### Who should participate in this webinar?

- Home Inspectors
- Energy Auditors
- Weatherization Professionals
- IAQ Specialists
- Building/HVAC Contractors
- Anyone using infrared for home inspections

### Inspecting In-Plant Electrical Systems with IR Imaging

This online webinar provides an overview of how to safely and effectively perform in-plant infrared inspections of electrical systems. The presentation includes what type of equipment should be considered for the infrared scan, the conditions needed, typical patterns detected and considerations for prioritizing findings. The discussion will cover the finer points of conducting an efficient and effective infrared inspection including tips for both in-plant thermographers and consultants.

**When** Wednesday, December 10, 2008

**Time:** 11:00 am, EST (GMT -05:00, NY)

**Duration:** 1 hour 10 minutes

**Host:** The Snell Group

**Presenter:** Rob Spring

**Fee:** \$79

#### Who should participate in this webinar?

- Maintenance Technicians
- Plant/Facility Managers
- Reliability Engineers
- Any thermographer new to the technology considering using infrared for in-plant electrical systems

**See Us at IMC 2008!**

For the past 23 years, this annual event brings 1000 of the best and brightest maintenance and reliability professionals from around the world to share knowledge experience with each other in a facilitated environment. No other maintenance and reliability focused event brings more products, services, software and training providers than the International Maintenance Conference and Expo.

- More than 50 learning zone sessions covering Best Practices, Reliability, Maintenance Management, Predictive Maintenance and Condition Monitoring as well as Computerized Maintenance Management (CMMS/EAM)
- 14 Pre-Conference workshops by leading subject matter experts and best selling Authors offering full day learning opportunities for you and your team
- A wealth of solutions, services and technologies in the full service IMC-2008 and CMMS-2008 Expo featuring over 75 world class vendors
- and much, much more!

Visit us in **Booth 204**. We look forward to seeing you at the show! [Get more information](#) ▶

**Enter To Win a 32" LCD HDTV at IMC!**

Complete the entry form (pictured below) found in your welcome bag and visit us at Booth #204 for your chance to win!

Qualifying candidates only. One entry per candidate. All entries must be received by December 11th at 12:00pm. Drawing to be held on December 11th at 2:00pm in exhibit hall. Winner must be present.

**Get It While It Lasts!**

Since we made our limited edition HotShot promotional T-shirt, it has been a hot item! Now, we are offering it to you at a special low price... \$25.00 plus Free shipping\*. This is only for a short time and they won't last long. So click below to snatch one up before they're gone!
